---

You have bats on your place. Your first reaction?

*(Pause for a "beat")*

Hah! Can't say that on the radio!

But consider this: One solitary little brown bat can eat up to  
600-mosquitoes... in one hour!

*(Pause for a breath. Let it "sink in".)*

Bet you didn't know that.

**(MUSIC IN: MM314, Cut 30 & under)**

You see, bats are part of our fragile ecosystem. And HOFF AND  
COMPANY BAT BUSTER of St. Cloud keeps that in mind.

So if you have bats, deal with them the right way.

Call HOFF AND COMPANY BAT BUSTER of St. Cloud.

And next time you're not slapping mosquitoes.. thank a bat!

**(Music out w/anncr.)**
